

American/Vendor
 Breakout Session
 Monday, September 20th
 1-5 PM on the 8th Floor
 Gray's Bay

DOCUMENT SECURITY SYSTEMS

If you're looking for something to sell that will help solve a major problem many of your customers are facing in order to grow your sales and profits and gain a competitive edge, read on.

Today the process of document fraud has gone from complex to casual and the problem is escalating out of control. The target ... no longer currency, now coupons and any valuable documentation. And the tools ... previously a printing press, but now a push of a button on your copier. More and more, documents of value and sensitive printed forms are vulnerable to easy and near indistinguishable duplication. Traditional security print features have not evolved as the modern copiers and scanners have and we are faced with an incomprehensible lack of control over our printed assets these days.

The old saying, "With every problem comes an opportunity" couldn't be more true for you in this case.

Enter, Document Security Systems (DSS) - The newest Patriot Level Partner to join American Solutions for Business. DSS offers security printing services and products that incorporate a proprietary suite of technologies called AuthentiGuard®. DSS security printed products and security paper feature the most advanced protection against attempted tampering and duplication and can be cost effectively applied to most any of your current print applications. With DSS as your secure print vendor you can add value and keep your existing accounts protected, plus, open new doors with a dynamic new product set.

DSS will be presenting in one of the featured sessions on Monday, September 20 and will have a booth at the Expo on Tuesday, September 21. This is one group you will definitely want to check out at this Family Reunion.
